

ColorCore

● ● ● ● ● by Remco

ColorCore is a general-purpose, value-oriented line of color-coded cleaning tools from Remco. The ColorCore range provides users with a balance of cost, durability, and effectiveness that is well-suited for use in restaurants, hotels, commercial and government buildings, and light industrial facilities.

ColorCore Features

- A good balance of value, durability, and effectiveness
- An assortment of 18 tools, each available in 6 colors, to help meet many common cleaning challenges
- Economically priced tools for lighter cleaning tasks
- Total-color construction that helps minimize the risk of cross-contamination by making it easier to properly identify and store tools
- Most tools are manufactured in TAA-compliant countries, making them suitable for government use

Suggested Applications

- Adding color-coding to 5S lean programs used in general manufacturing
- Separating cleaning tools by use (cleaning drains versus work tables)
- Identifying tools that belong in specific areas (restaurant kitchens versus dining rooms)
- General cleaning in commercial facilities like retail stores and office buildings
- Low-risk areas in food manufacturing facilities like offices or locker rooms

ColorCore tools are sufficient for many cleaning applications, but they are not intended to replace Vikan's hygiene line for high-risk applications like food manufacturing. See the comparison chart on the back page. Always conduct a thorough risk assessment before introducing new sanitation tools or plans.

Between Vikan's hygiene line and ColorCore, outfitting entire operations with trusted, effective, and color-coded tools is now easier than ever.

Products

51" Aluminum Handle

Part# 29401x

Colors: 2 3 4 5 6 9

59" Aluminum Handle

Part# 29411x

Colors: 2 3 4 5 6 9

50" Fiberglass Handle

Part# 29501x

Colors: 2 3 4 5 6 9

57" Fiberglass Handle

Part# 29511x

Colors: 2 3 4 5 6 9

10" Angle Head Broom, Medium

Part# 31011x
Colors: 2 3 4 5 6 9

24" Push Broom, Soft

Part# 31631x
Colors: 2 3 4 5 6 9

24" Single Blade Squeegee

Part# 72601x
Colors: 2 3 4 5 6 9

22" Foam Blade Squeegee

Part# 78551x
Colors: 2 3 4 5 6 9

12" Deck/Wall Brush, Stiff

Part# 36611x
Colors: 2 3 4 5 6 9

Basic Wall Bracket

Part# 0615x
Colors: 2 3 4 5 6 9

Stainless Steel Wall Bracket

Part# 0618
Colors: Stainless

Comparison of the ColorCore and Vikan Hygiene Lines

Feature	Benefit	ColorCore Line	Vikan Hygiene Line
Total-Color Construction	Easier visual identification	✓	✓
EU/FDA Compliant Materials	Safe for food contact when used within stated limits	✓	✓
Euro Threading	Creates a more secure connection between handles and tool heads versus acme threading	✓	✓
Lower Upfront Cost	Value-oriented tools lower the barrier of entry into a color-coding system	✓	
Lower Long-Term Cost	Higher-quality materials and rugged designs help tools last longer, reducing cost		✓
Commercial Grade	Best for lighter use in smaller areas like restaurants, hotels, commercial, and light industrial facilities	✓	
Industrial Grade	Best for intensive cleaning in food and other hygiene-critical manufacturing facilities		✓
Declarations of Compliance for the Entire Line	One compliance document applies to all tools	✓	
Declarations of Compliance for Individual Tools	Specific individual documents are available for each tool that is intended for food contact		✓
Hygienic Design	Smooth surfaces and curved internal angles make tools easier to clean and reduce harborage points for allergens and microorganisms		✓
Ergonomic Design	Reduces fatigue and the potential for workplace injury		✓
Fit for Purpose	Designed specifically for industrial food manufacturing		✓
Full-Line	Hundreds of specialized cleaning and material handling tools		✓
Up to 12 Colors Available	Maximum flexibility when building complex color-coding plans		✓
